

Quest GIS

An ISO 9001:2015 and MSME
certified organisation

2 MONTHS COMPLETE

GIS MASTERY: **QGIS & ARCGIS PRO**

TWO PLATFORMS. ONE COMPLETE GIS SKILLSET.

Learn.
Fundamentals.

Apply.
Real-World.

Solve.
Real Problems.

Two Powerful Platforms. One Complete Career-Boosting Journey.

LAST DATE TO REGISTER

02 OCTOBER 2026

MONTH 1

03 OCTOBER – 01 NOVEMBER 2026

QGIS

Fundamentals & Application

MONTH 2

07 NOVEMBER – 06 DECEMBER 2026

ArcGIS Pro

Fundamentals & Application

Quest GIS

An ISO 9001:2015 and MSME
certified organisation

JOIN BOTH OR ONE

Choose the path that suits you best and
upgrade your GIS skills!

MONTH 1

03 OCTOBER – 01 NOVEMBER 2026

QGIS

Fundamentals & Application

MONTH 2

07 NOVEMBER – 06 DECEMBER 2026

ArcGIS Pro

Fundamentals & Application

COURSE FEES STRUCTURE

QGIS

Fundamental and Application

For professionals
INR 3100/-

For students and past
participants of Quest GIS
INR 2500/-

ArcGIS Pro

Fundamental and application (only)

For professionals
INR 3500/-

For students and past
participants of Quest GIS
INR 3000/-

JOIN BOTH COURSES

COURSE FEES if you join complete two-month courses

For professionals
INR 6000/-

For students and past
participants of Quest GIS
INR 5000/-

IF YOU JOIN BOTH THE COURSES FOR ENTIRE TWO MONTHS, YOU GET

EXTRA 10% DISCOUNT WHICH WILL BE SENT TO YOU AS REFUND,
IF YOU REGISTER BEFORE 14.09.2026. THIS IS A LIMITED TIME OFFER. SO GRAB IT!

FEES CAN BE PAID IN EASY INSTALMENTS

without any extra fees if you join both the courses.

COURSE TOPICS

QGIS FUNDAMENTALS & APPLICATIONS

- ✓ QGIS Interface & Workspace Basics
- ✓ Working with GIS Data (Vector, Raster, Attribute)
- ✓ Coordinate Systems, Projections & Map Scale
- ✓ Data Management & Organization
- ✓ Importing, Exporting & Connecting Data
- ✓ Data Exploration, Querying & Selection
- ✓ Attribute Data Management & Joins
- ✓ Creating & Editing Vector Data
- ✓ Symbolology, Labeling & Map Styling
- ✓ Map Layouts, Print Setup & Exporting Maps
- ✓ Geoprocessing Tools & Workflows
- ✓ Buffer, Clip, Intersect, Union, Dissolve & Merge
- ✓ Spatial Analysis Tools
- ✓ Raster Analysis & Map Algebra
- ✓ Terrain Analysis (Slope, Aspect, Hillshade, Contour)
- ✓ Proximity, Distance & Network Analysis
- ✓ Overlay Analysis
- ✓ Zonal Statistics & Field Calculations

ARCGIS PRO FUNDAMENTALS & APPLICATIONS

- ✓ ArcGIS Pro Interface & Project Environment
- ✓ Catalog, Geodatabases & Data Organization
- ✓ Map Navigation & Data Frames
- ✓ Working with GIS Data (Vector, Raster, Attribute)
- ✓ Coordinate Systems, Projections & Map Scale
- ✓ Data Management & Geodatabase Basics
- ✓ Importing, Exporting & Sharing Data
- ✓ Symbolology, Labeling & Map Design
- ✓ Layouts, Templates & Map Production
- ✓ Geoprocessing Framework & Environments
- ✓ Analysis Tools (Buffer, Clip, Intersect, Union, Dissolve & Merge)
- ✓ Spatial Analyst: Raster Analysis (Slope, Aspect, Hillshade, etc.)
- ✓ Network Analysis Basics
- ✓ 3D Scene & Visualization
- ✓ ModelBuilder & Automation Basics
- ✓ Sharing Maps & Publishing

COMMON GIS CONCEPTS & APPLICATIONS

- ✓ Introduction to GIS & Its Applications
- ✓ Vector, Raster & Attribute Data Types
- ✓ Coordinate Systems, Projections & Map Scale
- ✓ Data Management & Organization
- ✓ Importing, Exporting & Managing Spatial Data
- ✓ Map Creation, Symbolology & Layer Styling
- ✓ Query, Selection & Data Filtering
- ✓ Joins, Relates & Data Integration
- ✓ Basic Geoprocessing Concepts
- ✓ Working with Online Data (Basemaps, WMS/WMTS)
- ✓ Time & Space Analysis
- ✓ Remote Sensing Basics & Raster Data Handling
- ✓ Digital Elevation Models (DEM) & Terrain Understanding
- ✓ Real-world Case Studies & Mini Projects

An ISO 9001:2015 and MSME
certified organisation

WHY JOIN BOTH COURSES?

Be Complete. Be Competitive. Be Career Ready.

JOIN BOTH COURSES AND BECOME THE COMPLETE GIS PROFESSIONAL
with strong fundamentals + advanced application skills employers demand.

QGIS

FUNDAMENTALS & APPLICATION

You build the foundation with QGIS

You Learn:

- ✓ Data handling & management
- ✓ Mapping & visualization
- ✓ Spatial analysis (buffer, overlay, clip, geoprocessing)
- ✓ Open-source workflow & automation
- ✓ Strong base for any GIS project

But you may lack:

Advanced analysis, data integration, enterprise workflows, 3D, and real-world project execution at scale.

TOGETHER
YOU GET

Stronger Concepts

Broader Toolset

Better Problem Solving

Higher Employability

Career Growth & More Opportunities

ArcGIS Pro

FUNDAMENTALS & APPLICATION (ONLY)

You advance with ArcGIS Pro

You Learn:

- ✓ Advanced spatial analysis & modeling
- ✓ 3D visualization & mapping
- ✓ Geodatabase & enterprise workflows
- ✓ Data integration & automation (ModelBuilder, Python)
- ✓ Industry-standard tools used in organizations worldwide

But you may lack:

Open-source flexibility, cost-effective solutions, and quick mapping & analysis for day-to-day tasks.

TODAY'S JOB MARKET

Employers look for professionals who not only know GIS, but can also apply it to **solve real-world problems and deliver results.**

WHY BOTH MAKE YOU JOB-READY?

Employers prefer versatile professionals who can work on both open-source and industry-standard platforms.

Work in any environment
Startups, NGOs, Government, or MNCs – you are ready for all.

Handle any project, any scale
From simple mapping to advanced spatial modeling and enterprise solutions.

Stand out. Get hired. Grow faster.
More skills = more opportunities, better roles, higher salary.

Future-proof your career
GIS is evolving. Be ready for what's next – AI, 3D, BIM, IoT, and beyond.

ONE BUILDS YOUR FOUNDATION. THE OTHER TAKES YOU BEYOND LIMITS.
TOGETHER, THEY MAKE YOU UNSTOPPABLE.

Don't just learn GIS.
MASTER GIS.

CERTIFICATION

CERTIFICATE OF COMPLETION

PRE-REQUISITES FOR CERTIFICATE

- 

1 Complete and correct submission of weekly assignments as instructed during course.
- 

2 Complete and correct submission of **one final assignment** as instructed during course.
- 

3 **70%** score in a final quiz.

IF YOU JOIN BOTH THE COURSES FOR ENTIRE TWO MONTHS,
EXTRA 10% DISCOUNT
IF YOU REGISTER BEFORE 14.09.2026.

Please note: Certificate of completion will be issued to candidates, only one meets the above requirements. This will ensure the high quality of the course and can guarantee the knowledge gained by each participant.
